

DESCRIPTION

Amazon strives to be Earth's most customer-centric company where people can find and discover virtually anything they want to buy online. By giving customers more of what they want - low prices, vast selection, and convenience - Amazon continues to grow and evolve as a world-class e-commerce business.

The EU Expansion team is specifically focused on breaking down barriers to allow customers from all across Europe to have a great retail shopping experience with Amazon.

The team is hiring for a Senior Product Manager to help with efforts in improving customer experience. The Senior Product Manager will have ownership of a number of projects and initiatives.

Key responsibilities include developing business cases to justify project prioritization, defining business requirements and working with both Tech and Non-Tech partner teams to plan and implement solutions for these requirements. The right candidate for this position should enjoy working in a start-up environment where collaboration, flexibility and a sense of humour are highly valued.

Traits of success:

- Empathy with the customer
- Thinks strategically and tactically
- Hands-on and results-oriented
- Harnesses data to drive decisions
- Thrives in ambiguous work environments

The position will initially be based in Luxembourg at the Amazon EU Headquarters. The long term location will be discussed on application.
